📍 Kathmandu, Nepal

## SKILLS

-Programming-Languages:Python,  
C/C++, Java,c#  
- Databases: SQL, MySQL, SQLite  
-Web-Technologies:HTML,CSS,JS  
- Framework: Django  
- Tools: Git, Visual Studio, PyCharm  
- Data Analysis: Excel, Tableau  
- Analytical thinking  
- Effective communication  
- Detail-oriented  
- Proactive and self-motivated

## EDUCATION

Bachelor In Computer Science And  
Information Technology  
[Tribhuvan University]

Expected Graduation:[sep/oct,2023]

## LANGUAGES

Nepal   
English   
Hindi 

## PROFILE

Motivated undergraduate in Computer Science and Information Technology from Tribhuvan University, seeking an internship opportunity. Passionate about Python development, business analysis, and data engineering. Proficient in data analysis, Python programming, and utilizing tools such as Django, Apache Spark, and SQL. Dedicated to solving real-world problems and driving data-driven success. Actively expanding knowledge in data science, AWS cloud computing, and database management. Seeking internships to contribute to innovative projects and make a meaningful impact.

## EXPERIENCE

### Project Highlights:

- Developed a fully responsive e-commerce website using PHP, CSS, and MySQL, enabling users to browse products, add items to the cart, and complete the checkout process.
- Created a restaurant management system using Python and Django, facilitating smooth operations by handling reservations, orders, and inventory management.
- Implemented a college recommendation system using PHP, CSS, and MySQL, providing personalized recommendations to students based on their preferences and requirements.

### Academic Projects:

- Demonstrated a strong understanding and practical application of computer theories, algorithms, and programming languages including .NET, Python, Java, HTML, CSS, and PHP.
- Successfully completed various lab assignments and projects, showcasing proficiency in software development and the ability to apply theoretical knowledge in practical scenarios.
- Developed a deep understanding of object-oriented programming languages and their theories, emphasizing the importance of code organization, reusability, and maintainability.
