Git-Hub: <https://github.com/NareshPoudel1>

Address: Kathmandu, Nepal

Objective:

Computer science graduate with a high level of motivation and attention to detail who can contribute to analysis and process improvement of different projects by bringing technical expertise, analytical capabilities, and good communication skills.

Education:

Bachelor of Science in Computer Science [Tribhuvan University]

(Expected Graduation: [Sep/Oct, 2023])

Technical Skills:

- Programming Languages: Python, .NET, C, C++, Java
- Database Systems: SQL, MySQL, SQLite
- Web Technologies: HTML, CSS, JavaScript, PHP
- Frameworks: Django
- Tools: Git, Visual Studio, PyCharm
- Data Analysis: Excel, Tableau

Key Skills:

- Strong analytical and problem-solving abilities, with a solid understanding of software development concepts and methodologies.
- Excellent communication skills, both verbal and written, enabling effective collaboration with cross-functional teams and stakeholders.
- Proven ability to translate technical concepts into non-technical language, facilitating clear communication between technical and business teams.

- Detail-oriented with the ability to analyze complex data sets, identify trends, and extract meaningful insights to drive informed decision-making.
- Proactive and self-motivated, with the ability to work independently and prioritize tasks in a remote work environment.

Projects:

- Online Shopping Site (PHP, MySQL): Developed a fully functional online shopping site that allowed users to browse products, add items to the cart, and complete the checkout process.
- Restaurant Management System (Python/Django, SQLite): Created a restaurant management system to handle reservations, orders, and inventory management, ensuring smooth restaurant operations.

Relevant Coursework:

- Database Management Systems
- Data Warehouse and Data Mining
- Software Engineering
- Cryptography
- Algorithms and Data Structures
- Principle Of Management

Languages:

- English (Fluent)
- Hindi
